Queen's Space Conference

QSC 2018 SPEAKERS

LETTER FROM THE TEAM

Dear Prospective Partner,

Firstly, we appreciate you taking interest in becoming a speaker at the Queen's Space Conference, Canada's premier student-run space conference. Our conference is entering its sixth year and it has proven to be an exceptional experience for all those who attend. QSC is a unique event, with the majority of our delegates being undergraduate students from a variety of Canadian Universities. Starting with less than 50 delegates when the conference began, last year hosting approximately 120, our conference is constantly evolving as interest continues to grow. By voicing your unique experiences in the space industry you will be inspiring the many intellectual and passionate minds in our audience. We hope that you can speak at QSC 2018 and help bring this year's conference to a new level of success.

On behalf of the entire QSC 2018 team, thank you and we hope to see you in the near future!

WHY QSC?

Here are some of the perks of joining the QSC family

Mission

It is QSC's mission to inspire our delegates to explore the endless possibilities in the space industry through engaging speakers and lively networking events. Our conference is organized to benefit each and every one of our speakers, sponsors, and delegates in attendance. Through inspiring our delegates your participation would be sparking new and developed interests in the young minds looking to pursue futures in space industry and research. QSC provides professionals and passionate students the opportunity to connect in an environment focused around our progress in space. We take pride in being able to host a memorable and stimulating event full of fascinating space-related content.

Offer

Our conference is a bridge between education and industry and we strive to create a dynamic event where both the technical and personal sides of the industry are explored. This offers an invaluable opportunity for partners to help grow exposure and interest in a unique way.

Accomodations

We understand the busy and demanding work of a professional in your field, and as such we will do our utmost ensure you have a comfortable stay with us. QSC will provide accommodation and meals for speakers throughout the conference weekend, which will be hosted at the Four Points by Sheraton in Kingston, Ontario. Food restrictions and allergies will be accommodated.

Theme

Some tips to maximize the effectiveness of your QSC experience

Every year, QSC focuses on a specific theme to organize the conference around. Past years' themes have included "The Civilian's Guide to the Galaxy" and "The Next Giant Leap." The theme of this year's conference is "Unearth: The Exploration of Space." This theme was selected as it allows for a broad range of speakers topics and aims to delve into the past, present, and future of space exploration and industry innovation.

Thank you for reading! We look forward to hearing from you soon.
